saints row iv - thank you pack. saints row 4 thank you pack

Hello Friends! This dlc pack was a thank you from deep silver to the players of the game when it first came out. It was a apology for the bugs that were released when the game came out. AS most games are released before there finished, that is why this DLC was created. At least they gave you free items for their game when it first came out.

Recommended because it adds new clothing for free!
